

Mounting instructions

BASIC LINE module connectors

for BASIC LINE SK/UK, BASIC LINE W, BASIC LINE N and BASIC LINE EN

Preparation

1. Check package contents for completeness.

- ✓ Module connection plate: 2 pcs
- ✓ Mounting instructions

2. If applicable, remove side face shelves. Unscrew fastening screws (1.) and remove side face shelf/shelves (2.). **Fig. 1**

Caution!

Secure side shelf/shelves against falling.

Then screw fastening screws into unit housing again.

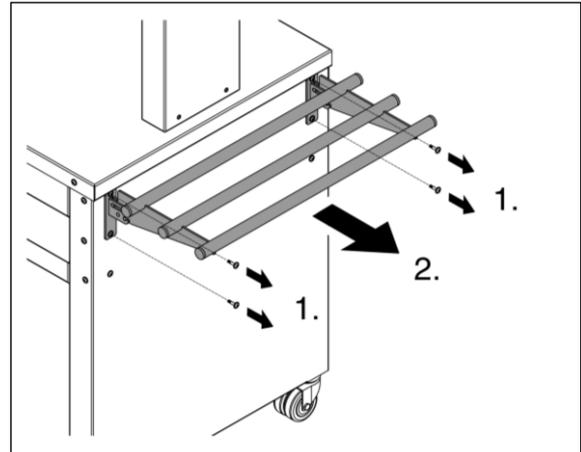

Fig. 1

3. Push together units to be connected. **Fig. 2**

The ground must be level in the area where the unit stands for proper mounting of the module connection plate.

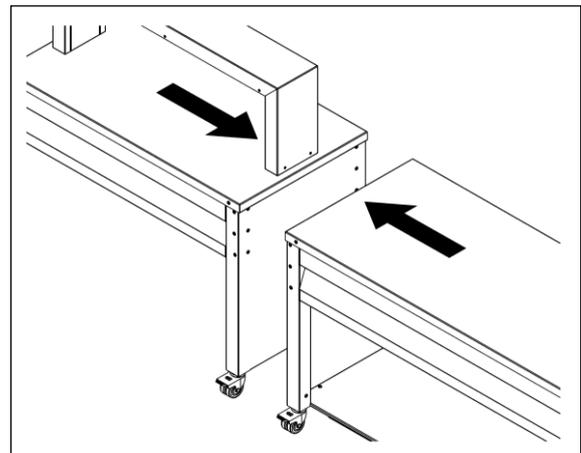

Fig. 2

4. Unscrew the screws for the assembly of the module connection plate on the guest **and** operator sides of both units. **Fig. 3**

If one or more tray slides are mounted, they should also be removed.

Caution!

Secure tray slide(s) against falling.

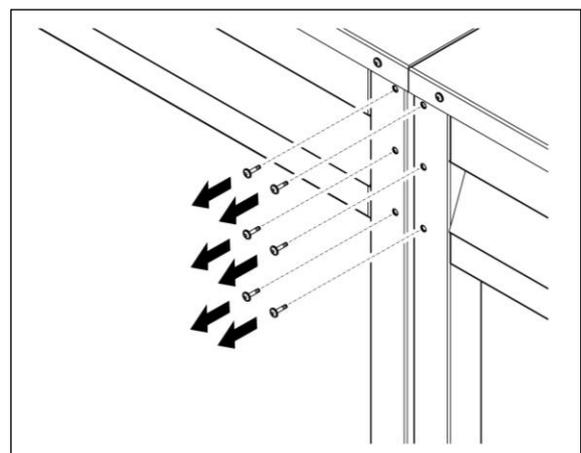

Fig. 3

Installation

1. Connect the units on the guest **and** operator sides with a module connection plate and the screws which were removed earlier. **Fig. 4a**

If one or more tray slides were mounted, they should be reinstalled together with the module connection plate. **Fig. 4b**
